

## **Important Pre-Notification About Integration:**

### **API Information:**

Main User (Ana Kullanıcı) and Technical User (Teknik Sorumlu) are authorized to access "Merchant no (merchant\_id)", "Merchant password (merchant\_key)" and "Merchant secret key (merchant\_salt)" which are required for API. These credentials can be found on the INFORMATION (BİLGİ) page on the Merchant Panel (Mağaza Paneli).

### **Integration consists of 2 steps:**

**STEP 1** - Preparing the payment form on your website and sending the information needed for PayTR API.

**STEP 2** - Create the Callback URL to Receive Payment Results: Callback URL is the URL of a page on your website where the PayTR system will POST payment results.

## **TEST CREDIT CARDS:**

Card Name : PAYTR TEST  
Cart No : 4355 0843 5508 4358  
Expiration : 12 / 24  
CVV : 000

Card Name : PAYTR TEST  
Cart No : 5406 6754 0667 5403  
Expiration : 12 / 24  
CVV : 000

Card Name : PAYTR TEST  
Cart No : 9792 0303 9444 0796  
Expiration : 12 / 24  
CVV : 000

**Please use Support (DESTEK) page on the Merchant Panel (Mağaza Paneli) for your inquiries regarding the integration process.**
